

C++/samples/server
/UpdateMode/OpcServer.h

```
graph BT; A["C++/samples/server /UpdateMode/Console.cpp"] --> C["C++/samples/server /UpdateMode/OpcServer.h"]; B["C++/samples/server /UpdateMode/OpcServer.cpp"] --> C;
```

The diagram illustrates a C++ project structure. At the top is a header file box labeled 'C++/samples/server /UpdateMode/OpcServer.h'. Below it are two source file boxes: 'C++/samples/server /UpdateMode/Console.cpp' on the left and 'C++/samples/server /UpdateMode/OpcServer.cpp' on the right. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header file.
