

CDABrowseDlg::browseRoot

CDABrowseDlg::isExpandable

SoftingOPCToolboxClient  
::DaAddressSpaceElement  
::getDaProperties

```
graph LR; A[CDABrowseDlg::browseRoot] --> C[SoftingOPCToolboxClient::DaAddressSpaceElement::getDaProperties]; B[CDABrowseDlg::isExpandable] --> C;
```

The diagram illustrates two function calls originating from the CDABrowseDlg class. The first call, CDABrowseDlg::browseRoot, and the second call, CDABrowseDlg::isExpandable, both point to the SoftingOPCToolboxClient::DaAddressSpaceElement::getDaProperties function. The arrows indicate the direction of the calls from left to right.
