

OTCProcessCommandLine

```
graph LR; A[OTCProcessCommandLine] --> B[SOCMnString::makeLower]; B --> C[SOCMnString::getLength];
```

A flowchart illustrating a sequence of three operations. The first operation, 'OTCProcessCommandLine', is contained within a gray rectangular box. A blue arrow points from this box to the second operation, 'SOCMnString::makeLower', which is in a white rectangular box with a black border. Another blue arrow points from the second box to the third operation, 'SOCMnString::getLength', also in a white rectangular box with a black border. The boxes are arranged horizontally and connected by arrows pointing from left to right.

SOCMnString::makeLower

SOCMnString::getLength
