

C++/samples/client  
/DABrowse\_DA20/DABrowse.h

```
graph BT; A["C++/samples/client /DABrowse_DA20/DABrowse.cpp"] --> B["C++/samples/client /DABrowse_DA20/DABrowse.h"]; C["C++/samples/client /DABrowse_DA20/DABrowseDlg.cpp"] --> B;
```

This diagram illustrates the relationship between three C++ source files. At the top is a header file, `DABrowse.h`, which is included by two other files below it: `DABrowse.cpp` and `DABrowseDlg.cpp`. The header file box is shaded gray, while the source file boxes are white. Blue arrows point from each source file box to the header file box, indicating the direction of the include relationship.
