ReadWrite

```
graph LR; A["Java_com_softing_opc_client_impl_jni_JNIOTClient_OTCRead"] --> C[ReadWrite]; B["Java_com_softing_opc_client_impl_jni_JNIOTClient_OTCWrite"] --> C;
```

The diagram illustrates a mapping from two JNI methods to a single ReadWrite object. Two white rectangular boxes on the left contain the method names: 'Java_com_softing_opc_client_impl_jni_JNIOTClient_OTCRead' and 'Java_com_softing_opc_client_impl_jni_JNIOTClient_OTCWrite'. Blue arrows point from the right side of each box to a gray rectangular box on the right labeled 'ReadWrite'.
