

CAEBrowseDlg::OnInitDialog

CAEBrowseDlg::OnSelchangeTab

CAEBrowseDlg::browseArea
Space

```
graph LR; A[CAEBrowseDlg::OnInitDialog] --> C[CAEBrowseDlg::browseArea Space]; B[CAEBrowseDlg::OnSelchangeTab] --> C;
```

The diagram illustrates a relationship between two functions and a data structure. On the left, two white rectangular boxes with black borders contain the function names 'CAEBrowseDlg::OnInitDialog' and 'CAEBrowseDlg::OnSelchangeTab'. On the right, a gray rectangular box with a black border contains the text 'CAEBrowseDlg::browseArea' followed by 'Space' on a new line. Two blue arrows originate from the right side of the first two boxes and point towards the left side of the gray box, indicating that both functions interact with or access the 'browseArea Space'.
