

daBrowse.OpcClient.setServiceName

daConsole.OpcClient.setServiceName

com.softing.opc.client.api.
Application.setServiceName

```
graph LR; A[daBrowse.OpcClient.setServiceName] --> C[com.softing.opc.client.api.Application.setServiceName]; B[daConsole.OpcClient.setServiceName] --> C;
```

The diagram illustrates two method calls on the left, each with a blue arrow pointing to a single target box on the right. The top box is labeled 'daBrowse.OpcClient.setServiceName' and the bottom box is labeled 'daConsole.OpcClient.setServiceName'. Both arrows point to a gray box on the right labeled 'com.softing.opc.client.api.Application.setServiceName'.
