

SOXpSNode::setUpdateMode

SOXpSProperty::setUpdateMode

SOXpSTag::setUpdateMode

SODaSIItemTagConnectQueue
OneItemsStore::createItemList

```
graph LR; A[SOXpSNode::setUpdateMode] --> D; B[SOXpSProperty::setUpdateMode] --> D; C[SOXpSTag::setUpdateMode] --> D; D[SODaSIItemTagConnectQueue<br/>OneItemsStore::createItemList];
```

The diagram illustrates a dependency or call relationship. On the left, three white rectangular boxes with black borders contain the method names: 'SOXpSNode::setUpdateMode' (top), 'SOXpSProperty::setUpdateMode' (middle), and 'SOXpSTag::setUpdateMode' (bottom). On the right, a larger gray rectangular box with a black border contains two lines of text: 'SODaSIItemTagConnectQueue' and 'OneItemsStore::createItemList'. Three blue arrows originate from the right side of each white box and point towards the left side of the gray box, indicating that each of the three methods on the left interacts with or calls the components listed in the gray box.
