::AddressSpaceRoot::AddressSpaceRoot

OTSInitAddressSpace

```
graph LR; A[SoftingOPCToolboxServer::AddressSpaceRoot::AddressSpaceRoot] --> C[OTSInitAddressSpace]; B[SoftingOPCToolboxServer::AddressSpaceRoot::AddressSpaceRoot] --> C;
```

The diagram illustrates a call or relationship from two identical source objects to a single target object. The source objects are labeled 'SoftingOPCToolboxServer::AddressSpaceRoot::AddressSpaceRoot' and are contained within white rectangular boxes with black borders. The target object is labeled 'OTSInitAddressSpace' and is contained within a gray rectangular box with a black border. Two blue arrows originate from the right side of each source box and point towards the left side of the target box, indicating a directed relationship or call.
