

C++/samples/client
/DAConsole_Service/OpcClient.h

```
graph BT; A["C++/samples/client /DAConsole_Service/OpcClient.h"] --> B["C++/samples/client /DAConsole_Service/OpcClient.cpp"]; A --> C["C++/samples/client /DAConsole_Service/Service.cpp"];
```

The diagram illustrates the relationship between three C++ files. At the top is a header file, 'OpcClient.h', which is included by two other files below it: 'OpcClient.cpp' and 'Service.cpp'. The header file box is shaded gray, while the source files are white. Blue arrows point from the source files up to the header file.
