

CGridCtrl::SetCellType

CGridCtrl::SortItems

CGridCtrl::SetCell

```
graph LR; A[CGridCtrl::SetCellType] --> C[CGridCtrl::SetCell]; B[CGridCtrl::SortItems] --> C;
```

The diagram illustrates a relationship between three methods of the CGridCtrl class. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'CGridCtrl::SetCellType' and the bottom box contains 'CGridCtrl::SortItems'. On the right, there is a gray rectangular box with a slight 3D effect, containing the text 'CGridCtrl::SetCell'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'SetCellType' and 'SortItems' methods call or utilize the 'SetCell' method.
