

C++/samples/client  
/AEEventTypes/AEEventTypes.h

```
graph BT; A["C++/samples/client /AEEventTypes/AEEventTypes.h"] --> B["C++/samples/client /AEEventTypes/AEEventTypes.cpp"]; A --> C["C++/samples/client /AEEventTypes/AEEventTypesDlg.cpp"];
```

The diagram illustrates the relationship between three C++ source files. At the top is a header file, 'AEEventTypes.h', located in the 'C++/samples/client/AEEventTypes' directory. Below it are two source files: 'AEEventTypes.cpp' on the left and 'AEEventTypesDlg.cpp' on the right, both in the same directory. Blue arrows point from each source file to the header file, indicating that both source files include the header file.

C++/samples/client  
/AEEventTypes/AEEventTypes.cpp
