

`_tmain`

```
graph LR; A[_tmain] --> B[OpcClient::printInitialObjectAttributes];
```

The diagram consists of two rectangular boxes connected by a blue arrow. The first box on the left is white with a black border and contains the text `_tmain`. A blue arrow points from the right side of this box to the left side of a second box. The second box is gray with a black border and contains the text `OpcClient::printInitialObjectAttributes` in two lines.

`OpcClient::printInitialObject
Attributes`
