DaAddressSpaceElement.browse

com.softing.opc.client.api.
DaSession.browse

com.softing.opc.client.impl.jna.
OTClient.OTCBrowseAddressSpace

```
graph LR; A[com.softing.opc.client.api.DaAddressSpaceElement.browse] --> C[com.softing.opc.client.impl.jna.OTClient.OTCBrowseAddressSpace]; B[com.softing.opc.client.api.DaSession.browse] --> C;
```

The diagram illustrates a mapping from two distinct API methods to a single implementation. On the left, two white rectangular boxes represent the API methods: 'com.softing.opc.client.api.DaAddressSpaceElement.browse' (top) and 'com.softing.opc.client.api.DaSession.browse' (bottom). On the right, a gray rectangular box represents the implementation: 'com.softing.opc.client.impl.jna.OTClient.OTCBrowseAddressSpace'. Two blue arrows point from each of the left boxes to the right box, indicating that both API methods are implemented by the same underlying function.
